

## PRINCIPALS MESSAGE

Wow, what a term it has been so far! Alhamdulillah, our horse riding program has continued to be a tremendous success, with students gaining confidence and skills each week. Despite a few interruptions earlier in the term, our swimming program has now resumed smoothly with the improved weather, and students will not miss out on any allocated lessons. Of course, you also would've noticed the college's emphasis on healthy eating and healthier alternatives. This is all part of our aim to promote deeply rooted prophetic traditions.

SubhanAllah, we have already passed the halfway point of the term, and with only a few weeks remaining before the year comes to a close, we hold high expectations that we will finish the year on a strong and positive note. Our students have shown great enthusiasm, and together we look forward to reaching many milestones as a College community.

Recently, we also hosted our very first Family Movie Night, which was an overwhelming success. A heartfelt thank you goes out to our dedicated staff, wonderful students, and supportive families who attended. This event has set a beautiful precedent, and it certainly won't be the last of its kind. We also have some very exciting news for New Madinah College that we look forward to sharing with our community very soon, In Sha' Allah. For now, all we can say is—watch this space. Moving forward, New Madinah College is committed to becoming more than just an educational facility; we are building a vibrant family and community hub that nurtures and upholds our core Islamic values.

Kind regards,  
**Sheikh Abdulghani Albaf**

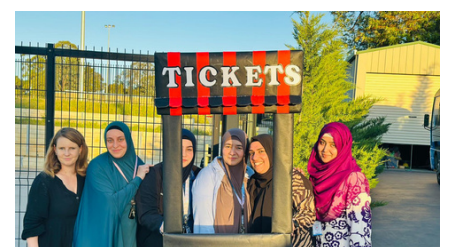

## A MESSAGE FROM THE ADMIN LADIES

Assalamu Alaikum Warahmatullahi Wabarakatuh,  
What an unforgettable experience! Our first Movie Night was a wonderful success, filled with excitement, laughter, and families enjoying a beautiful evening under the stars. Although the night ran a little later than expected, we sincerely appreciate your patience, understanding, and ongoing support.

As we enter the final weeks of term, the school is buzzing with activity. Here are the upcoming events:

- Multicultural Day – 28th November
- End of Term Excursions – Dates TBA
- Year 6 Dinner – 16th December
- End of Term Assembly – 18th December
- Last Day of School – 18th December

Thank you once again for your continued support. We look forward to ending the year with warmth, unity, and wonderful memories.

## KINDERGARTEN : SPELLING STARS SHINE IN THE CLASSROOM

WITH MS NAFIESA

This term, I introduced spelling test to help strengthen students' literacy skills, and the response has been absolutely incredible. The learners have embraced the challenge with enthusiasm, showing dedication, confidence, and a real love for learning. Each week brings excitement and anticipation as they eagerly await their results.

Their progress has been outstanding, and we are so proud of the effort each child is putting in. This week's Spelling Pros are Ali Kassem, Sabrina Wehbe, and Ghanem Taha, who achieved excellent results and demonstrated remarkable improvement. Well done to all our hardworking learners!

---

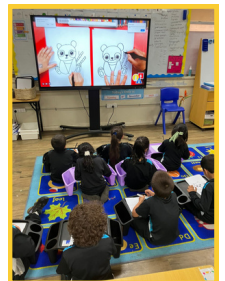

## YEAR 1/2: FOLLOWING STEPS

WITH MS PRINCE

Our Stage 1 students had a fantastic time completing a cute panda drawing tutorial this week! They followed the steps with so much enthusiasm and loved adding their own creative touches. The room was filled with smiles, giggles, and lots of proud little artists showing off their adorable pandas!

BE  
CREATIVE

---

## YEAR 3: GEOGRAPHY DIORAMAS

WITH MS MAYSAH

I am so proud of our Year 3 students for the amazing effort they put into their natural environment dioramas. Each creation beautifully showcased their deep understanding of Australia's diverse environments, while also highlighting their creativity, attention to detail, and thoughtful design. It was wonderful to see their knowledge come to life in such imaginative ways.

A heartfelt thank you to our supportive parents for the time and encouragement you gave—your involvement truly helps your children shine. Well done, Year 3, on such a fantastic achievement!

---

## K-3 ARABIC AND QURAN WITH MS HAMMOUD

Allahumma Bārik, our K–3 students have been working incredibly hard and have achieved so much this year. The amount of learning that has taken place—the Surahs memorised, the Arabic acquired, and the du‘aa and Islamic knowledge gained—has truly been remarkable.

As we approach the end of the year, our learners are finalising their assessments and preparing to showcase their progress through a series of end-of-year presentations. Without revealing too much, we are excited for you to join us at the End-of-Year Assembly and witness firsthand the wonderful achievements of our children.

We look forward to celebrating their growth and success with you, In Sha’ Allah.

---

## YEAR 4 IN ACTION WITH USTAZ UMAR

Year 4 students have been working extremely hard as we approach the end of the year. Our recent focus has been on understanding different types of environmental responsibilities. Students have not only learnt about recycling, reducing waste and caring for Allah’s creation, but they have also actively implemented these practices in the classroom. We are now moving into developing persuasive essays, where students are learning how to express their opinions clearly and respectfully. They are beginning to use evidence, strong arguments and formal language to convince readers of their viewpoints. Year 4 should be very proud of their efforts and progress.

## YEAR 5 & 6 OUR CLASS SHOP: LEARNING THROUGH EARNING!

### WITH MS TAPRELL

Have you ever wondered what happens when math meets real life? Welcome to our class Shop, where students earn classroom currency and spend it on fun prizes each week!

#### How It Works:

Students earn “money” for positive behavior, completing tasks, and showing teamwork. Every Friday, the classroom becomes a mini marketplace where they budget, save, and spend their earnings.

#### Why It’s Awesome:

It builds responsibility, financial literacy, and goal-setting—students learn that effort pays off and smart choices matter.

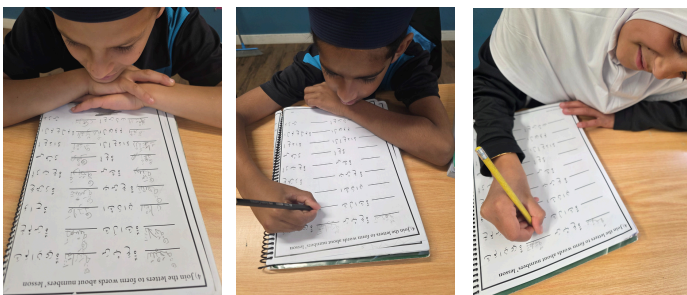

#### The Math Behind the Fun:

Students practice addition, subtraction, multiplication, and budgeting as they total costs, calculate change, and plan for bigger rewards.

This hands-on experience makes math meaningful and teaches real-life skills that last well beyond the classroom!

---

## QURAN WITH SHEIKH AYAD

Assalamu Alaikum wa Rahmatullahi wa Barakatuh,

I would like to share the wonderful progress our students have been making in their Islamic Studies and Qur’an learning:

**Year 4:** Students are working hard on developing their Arabic writing skills. They have completed Surah An-Naba’ and are now learning Surah An-Naazi‘aat up to ayah 20.

---

**Years 5 and 6:** Students are progressing well in their Qur'an recitation. They have reached Surah Al-Haqqah up to ayah 20.

**Years 7 and 8:** Students have completed Surah Al-Munafiqun. They are now learning Surah Al-Jumu'ah up to ayah 9.

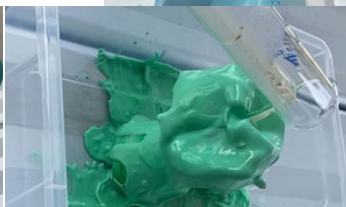

**Years 9 and 10:** Students have finished Surah Al-Insaan.

A reminder: their test will be next Monday. May Allah bless all our students for their hard work and dedication.

## THE SCIENCE SQUAD!

### WITH MS NOOR

Watching something change completely under their fingertips, feeling the heat rise, the pressure build, the exact moment everything transforms...yeah! This is the kind of education that leaves them breathless and wanting the next lesson immediately. High school students are very keen on taking part in science experiments this term

### ★ TEACHER'S DU'Ā ★

Dear Stage 5 students,  
It has been a blessing to watch you grow—in maturity, in effort, and in the quiet discipline you bring to each lesson. Every small step you take is shaping the person you're becoming, and I am grateful to walk part of that journey with you.  
May Allah place barakah in your learning, guide your hearts, open your paths, and reward every sincere effort you make.  
Ameen.

### WITH MR EKMAL

## SWIMMING LESSONS

### WITH MRS WHITE

What a lovely day we had for swimming this week!! I've been impressed the last 2 swimming days with how hard many students are working at improving their skills.

We have students for whom putting their eyes in the water is still a big challenge, and others who are working on bilateral breathing to improve their freestyle, or learning breaststroke kick. At every level I'm seeing keen students who want to learn, and are putting in their best effort

## THE FINAL STRETCH

### WITH MS ALBAF

Students have been hard at work this week as they focus on completing their final assessments, with classrooms buzzing as everyone pushes to get tasks finished and submitted before the term ends.

## SENSORY SESSIONS

### WITH THE SUPPORT TEAM

Sensory play helps learners by giving them simple, hands-on experiences. When children touch, move, and explore different materials, they build stronger brain connections. This type of play supports language growth, attention, and problem-solving skills
