

WE'RE MAKING KITES!

ALL THE NEWS THAT'S FIT TO PRINT BROUGHT TO YOU BY NEW MADINAH TIMES

Assalamu Alaikum Dear Parents & Carers,

Term 3 is now coming to a near close, SubhaanAllah it has been a fantastic year. I can't help but reflect and appreciate what has been achieved during the past 3 terms. We have had a lot of fun and excitement and seen students grow from strength to strength. I would like to advise all students to push on and to finish off the year on a high, always striving to achieve their best in all that they do.

We are all very excited to have received our kite kits from the Harden Kite Festival yesterday. Students will be designing and decorating their own kites during their Creative & Practical Arts class. Students are encouraged to take the completed kites with them to the Harden Kite Festival on the 13th of October where they will be placed into a competition to win some small monetary prizes.

The CPC will also be holding a Falafel wraps, salads and sweets stall at the Harden Kite Festival so come along, bring the family and enjoy a day out while watching the serenity of the huge kites flying.

This week we have welcomed a new receptionist to our midst, Ms Abrar, we are very excited to have her join the NMC family! Have a great and safe holidays!

Principal's Message

All praises be to Allah SWT and peace be upon his noble messenger Muhammad PBUH.

Assalaamu Alaykum Wa Rahmatullahi Wabarakatuh

We have now reached the final stretch of the term with only 2 weeks left of term 3 subhaanAllah! Where has the time gone? May Allah SWT make our crossing of al-siraat even swifter inshaa'Allah.

In the classrooms students have undergone mainly review work this week to prepare them for their end of term exams scheduled for next week inshaa'Allah. Students should do their part and complete their homework and revision tasks, which will help them achieve the high results they desire to achieve inshaa'Allah.

Letters have been sent home today announcing the opening of Kindergarten 2019 enrolments. Parents interested in enrolling their Pre-Kindergarten child to the Transition to School program should fill out the form and return it to the school. A Kindergarten orientation day will take place during the first week of term 4 and fortnightly transition days will follow throughout term 4. We look forward to receiving your applications.

Parent and Teacher interviews are coming up soon, if you would like to schedule time to discuss your child's progress thus far during semester 2, be sure to complete the form requesting an interview with your child's class teacher.

Mouhamad Chmait - Principal

Fortnightly Hadith

The Messenger of Allah (Peace and blessings be upon his) said: "Whenever you hear the Adhan, say what the Muadhin (caller of prayer) is saying."

K RUBY

Assalamalikum parents, caregivers and friends. This is the final newsletter of the term and I would like to take this opportunity to thank everyone's (students and parents) hard work this term. Kindergarten so far have provided some very impressive results and I am ecstatic about their progress. We still do have exams next week (week 9) so please continue to make sure your child has plenty of rest and relaxation.

Next week for homework we will only be giving out a spelling list but keep an eye on seesaw as I will be posting what exams we have, an exam timetable and any points I think they might need to revisit. (Although I don't think there will be many)

We will be having teacher/parent interviews week 10 this term. Please book through the front office if you would like to book a time. Also, if there is anything in particular you would like to see or discuss please feel free to message me on seesaw as the interviews tend to be a brief over view of your child's progress so far.

Lastly, I hope to see you all at this term end of term assembly as it is kindergarten's term to do a recitation of Quran with their Arabic teacher, Miss Nada which they are all very excited about.

Ms Nikki

1/2 PEARL

Assalamu Alaikum,

We are up to the last two weeks of term. The students have been working very hard this term and I am sure they have prepared well for their assessments in week 9.

We will send Home via Seesaw their timetable of their assessments and an idea of what we will be covering. This week the students thoroughly enjoyed their community excursion particularly the ambulance, police station and the library.

The library reminded us that students can get free library cards from the age of 5 and can borrow up to 10 things including DVDs and audiobooks. I encourage you to visit the library with your children. It was a wonderful day!

Ms Clare

3/4 EMERALD

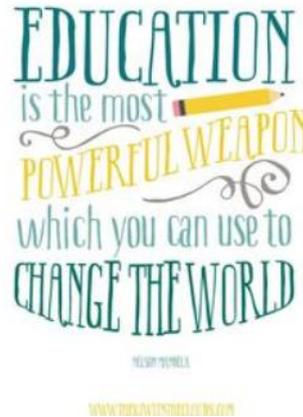

Week 8 is coming to a close and the students are continuing to work hard.

This week we have learnt about or revised 2 & 3 D shapes and their properties in Mathematics. In science we have learnt about the phases of the moon, and the scientific name for axis (being Obliquity). Please ask your children to tell you about this for reinforcing of these concepts.

I would again encourage every child to be reading at least 15 minutes per day and don't forget to exchange their home readers.

Next week is exam week and the students being more than ready, I have confidence they can all do well. Please encourage your children to complete their homework and return it to school by Friday morning.

Have a wonderful week and I leave you with a fabulous quote.

5/6 SAPPHIRE

Asalaamu alaikum parents,

I'll be taking over as class teacher until the end of the year, inshallah. The class have endured a lot of changes, but they've coped well alhumdulillah. This week we've continued working on narratives and some of the students have been confident to read their stories out in front of the class. The other students practiced their communication skills by providing positive feedback as well as constructive criticism to support all writers to improve their work. They did this very respectfully.

Year 5 have been looking at enlarging and reducing in Maths while Year 6 were looking at 3D shapes and angles. They also started researching bushfires for their Geography assessment.

We also re-examined the petri dishes that students did with Sally the Scientist last week. Lots of bacterial growth on some of them Subhanallah.

It's assessment week next week already! Students need to complete their Lapbook project at home for Science and also have a poster on Bushfires to do for Geography. Other assessments will be completed in class next week.

I pray you all have a good weekend.

Ms Ellen

7 DIAMOND

Assalamu Alaikum,

For those of you who don't know, I am now teaching Year 7 exclusively (other than Arabic) and Ms. Ellen has taken over Years 5 and 6. Although not ideal, this change was needed to cater for the departure of Ms. Sarah. I would also like to bring to your attention that Year 7 students have in-class exams next week. As a result, they need to be encouraged to revise as part of their homework. I ask that you assist your children with this in order for them to reach their potential. Exam content will only cover material studied in class. Consequently, no student should be disadvantaged, although those who have been absent and not yet caught up will be behind others. Let's hope that all students do well next week and show us what they are really capable of.

Yours Sincerely,

Mr. Adrian

CADBURY FUNDRAISER BOXES

We have ordered a bulk lot of Cadbury boxes for students to fundraise money for their class activities and events. If you give permission for your child to bring home a Cadbury box to sell, please either send a note with your child to school or contact the

College on
02 6382 7873.

RAISE AN OPTIMIST

TIP #4

Wait Before
Reacting.

Curbing your "mama bear" instincts can take enormous self-control. When your child is trying to sound out a new word or taking a long time to fit a piece into a puzzle, it's easy to quickly intervene. But letting your child try to solve things without your help will boost their sense of accomplishment and make them more optimistic about what they can do in the future.

UPCOMING EVENTS

Date	Event
24 th to 26 th Sept	Parent & Teacher Interviews
27 th Sept	Sunnah Day
28 th Sept	End of Term Assembly 10:00am
13 th October	Harden Kite Festival

Word Search Puzzle

How to play Sudoku:

Every Sudoku has a unique solution that can be reached logically. Enter numbers into the blank spaces so that each row, column and 3x3 box contains the numbers 1 to 9.
