

BUSH POETS VISIT!

ALL THE NEWS THAT'S FIT TO PRINT BROUGHT TO YOU BY NEW MADINAH TIMES

Crunch Time!

Assalamu Alaikum Dear Parents & Carers,
Welcome to week 4 of term 4! MashaaAllah we have reached the middle of the term already. It is crunch time for students, teachers, staff and parents to get serious about finishing the 2019 year on a high! If there is ever a time to make a good change it is right now, there is still time and room for improvement inshaa'Allah.

On the 31st October the school was visited by Bush Poets Melanie and Suzie who gave a very entertaining and engaging poetry performance to our S2 and S3 students; Melanie and Suzie are famous poets whom travel and perform all around the world, so we are very blessed to have been given the opportunity. The students loved it and we received such great compliments from the poets themselves saying that our students were the most intellectual students of all the schools they visited in Young and asked the most relevant questions! Mashaa'Allah may Allah swt bless and preserve our students.

We have so much to look forward to in the coming weeks inshaa Allah including swimming lessons, a whole school excursion, year 6 dinner and of course our end of year celebrations! Have a happy and safe weekend and a blessed Jumu'a!

Ms Nada – Assistant Principal

Principal's Message

All praises be to Allah SWT and peace be upon his noble messenger Muhammad PBUH.

Assalaamu Alaykum Wa Rahmatullahi Wabarakatuh

Subhan Allah, we are already approaching midway of term 4 of 2019 and closing in on the end of the school year. At New Madinah College we strive to enrich your child's learning by implementing the best teaching practices and programs to deliver the NSW syllabus as well as implementing the sunnah of Rasool Allah (SAWS) in every aspect of your child's schooling.

In the coming couple of weeks please expect to receive excursion permission slips that will need to be signed and returned to the school. We have planned an exciting excursion with years K to 2 visiting a train museum, Wagga Wagga beach and Noah's Ark playland and years 3 to 8 going to Borambola Sport and Recreation Centre where they will participate in raft building and testing, kiaking, BMX biking and a mud-run. The Borambola trip is costing approximately \$72 per student however only being charged to parents at \$35 per student. Alhamdulillah the remaining expenses are being subsidised by the students fundraising efforts and by the school. It is great to see our students reaping the rewards of their efforts and being provided such opportunities.

With the school year's end fast approaching, I would like to kindly ask all parents to finalise school fees payment for 2019 as soon as possible. Any family struggling to pay school fees is welcome to discuss their situation with myself and we can sort out a payment plan. Our priority is to provide a high level of education in an Islamic setting for your children. May Allah SWT bless our school community. Mouhamad Chmait - Principal

1/2 PEARL

Asalaamualaikum Pearl Class families,

Well we've nearly reached the half-way mark of term 4 already. The children will be starting their final assessments in week 7 so keep up the encouragement and support with homework. When we help our children it's always best to encourage them to think out loud before writing. That way we know we are supporting them to think for themselves. Also encourage them to take charge of reading instructions and get them to tell you what they think they have to do.

We've completed 3 weeks of karate and many of the children have been participating well in this activity. Don't forget to remind your children to bring a water bottle! Most of our students are remembering their hats but occasionally they go missing. Make sure their name is written in large print as it is easy for younger children to grab the wrong hat and not notice.

We've been looking at connections to place in Geography and the children are showing a lot of interest in learning about countries. Now would be a good time to get any photos out at home to share the places that are important to your family.

We pray you have a safe and happy weekend.

From Ms Ellen and Ms Sarah

3/4 EMERALD

Assalamu Alaikum students and parents,

I hope you have all been well! The students have been working well the last two weeks and I am proud of their efforts, as they should be! Their behaviour and application to their studies has been exemplary! I look forward to getting some great pieces of work during exam time in Week 10, if the work they are producing in class is anything to go by.

Students revised addition and subtraction last week and this week they have been learning about chance. We have been working with dice, colours and spinners, which have been fun for the students and very educational. It has been good seeing them understand new content and apply it to real life activities. In English, we are learning to write poems and procedural writing. They have been learning about poetic techniques and will soon be writing their own poems. In procedural writing, they have been learning to write recipes and instructions to create general tasks (like planting a seed and building a sandcastle). It is very interesting to see how much knowledge they have regarding cooking and other tasks. In Geography, students have been learning how to read maps and learning about Australia's neighbouring countries. In Science, students have been learning about temperature. By far, my favourite activity in these last two weeks has been making masks. Yesterday, we blew up balloons and started adding newspaper to form the face. It has been a fun start to the project!

Our fundraiser will also be happening in Week 6. This will be a fun event for the students, and we will be discussing what food we can make sometime this week. The students have been excited about this and I cannot wait to see how yummy the food they make will be. I hope the students will continue to impress me with their efforts and their wonderful behaviour. Regards, Ms Amanda

5/6 SAPPHIRE &

7/8 DIAMOND

MR ADRIAN

Assalamu Alaikum students and parents,

I'm happy to say that Term 4 is swimming along nicely. 5/6 have won Class of the Week once this term and have been close on all other occasions. They have been trying hard in their work and use their time wisely. As you may have seen on Seesaw, they also attended an informative and engaging bush poet's presentation. I was really happy with it as it extended on the poetry we are learning in class more than I could have wished for. Students also appeared to enjoy themselves.

I am also satisfied with 7/8 Diamond. I have been giving them homework more often lately and I can see that they are learning the concepts being taught in class. Furthermore, I haven't had to chase students up for their homework, which shows a level of motivation towards their studies that I haven't really seen at other schools. Lastly, we have some new students in the class. I am happy to report that they have settled in nicely and appear eager to test themselves.

Until next time, Mr. Adrian

MS AMIRA

Our lovely S3 class is on the inquiry journey of investigating light. They are enjoying working in teams or individually to conduct an investigation which assists them to develop a better understanding of the unit. We are also using technology such as ipads and computers to further research or record collected data. I am pleased to see the students are engaged and work productivity with each other and their teacher. Keep up the hard work, S3.

S4 Science travelled out of space to discover the solar system and the beautiful wonders of the universe. They explored the different elements of space and developed paper mache planets during the practical sessions. Then, we returned to earth to examine how seasons work and the gift of day and night. I hope students gained the experience of appreciating such natural wonders that are out of this world!

In TAS, we are brainstorming, planning, implementing, testing and evaluating models of cars made by students. Yes! young engineers using various materials to make a vehicle that not just for display but has the power to move on its own. They are on the road to improve their designs by learning from previous mistakes (trial and error). Keep on moving forward, S4.

PRE-KINDY TRANSITION DATES

20th November
4th December
18th December

NO HAT NO PLAY

The No Hat No Play policy is in full swing this term, please make sure your hat is labelled with your name.

**8 WAYS TO
ENCOURAGE
YOUR CHILD TO
TAKE PRIDE IN
THEIR WORK**

**#6 Don't give
them everything**

Giving your children everything will almost always result in kids who have a poor work ethic, an attitude of entitlement, and be anything but grateful. There is nothing wrong with children who have to help pay for the things they want and maybe even the things they need at times. Children who are able in any way should have to help pay or work for some of the things they have.

UPCOMING EVENTS

Date	Event
14 th November	S1 Aunty Enid Aboriginal Visit
20 th November	Sunnah Day & S2 Fundraiser - Pre-Kindy Transition Day
4 th December	Pre-Kindy Transition
9 th to 11 th Dec	Swimming @ Young Pools – To be confirmed
12 th December	Whole School Excursion
